The comforts of indoors, out.

Fireplaces have a mesmerising quality – people love sitting around them and watching the flames flicker. An outdoor fireplace means you can entertain late into the night, creating a dramatic focal point that’s warm and inviting.

Whether it’s outdoor cooking on a wood fuelled fireplace, or the instant convenience of a gas fireplace, Escea’s outdoor range makes entertaining easy.

“Whether indoor or outdoor, our approach to designing a fireplace remains the same. We start with the customer in mind and think about how they live their lives (or wish they did). It’s about creating a social hub for the family to gather and relax. Whether that means eating, drinking, entertaining, or just flame watching.”

Best of all, once the flame cooking is done, it all hides underneath a stainless steel draw. Leaving you with a roaring outdoor fireplace to relax in front of into the small hours.

Professional grilling
13-point adjustable height grills and an Ember Generator let you cook your food at the perfect temperature, for that delicious flame grilled smoky flavour.

The EK Series features new technology that allows the fireplace to be attached to the home, for greater indoor-outdoor flow.
Nothing brings people together quite like food and flames. Now Essex has found the perfect way to combine them both.
