

FLOORING SOLUTIONS FOR STORES AND SHOPS

Stores & Shops

Tarkett - all you'll need

A WORLDWIDE LEADER IN FLOORING

- > 130 years experience
- > Employs over 10,700 people
- > 38 production sites
- > Largest resilient flooring range
- > Serves customers in more than 100 countries
- > Over 1.3 million m² of flooring sold every day

Tarkett provides integrated flooring solutions developed to enable you to design floors that meet specific customer needs and provide unique end user benefits.

Combining the broad product portfolio of vinyl, linoleum, laminate, carpet and wood flooring with a huge palette of colours and designs, Tarkett can provide the perfect solution for almost every commercial and residential application.

Our Balanced Choice approach to product sustainability ensures you can be comfortable that we have made every effort to minimise their impact on the environment during their entire life.

Bring images to life

With the Tarkett viewer on your iPad, you can bring images in this brochure to life.

1. Download the free Tarkett Viewer from the App store.
2. Look for the Tarkett Viewer logo on an image in this brochure.
3. Start the app on your iPad and tap the viewer button in the toolbar.
4. Hold your iPad over the image to trigger an action.

Download the free
Tarkett Viewer
from the iTunes
app store here

Using the Tarkett Viewer app requires an internet connection and data charges may apply.

SJ Travel Center, Sweden

With you all the way

Tarkett offers the market's most suitable flooring solutions for the retail channel by listening to the professionals, and by being on hand to offer information and assistance through every stage of a project – from planning, to installation, to ongoing cleaning and maintenance including:

- Certification for each product to meet regulations and compliance
- Access to international colour trends and styles
- Specialised design insights in collaboration with industry experts
- GreenTag accreditation for Linoleum & H0 ranges
- Onsite installation support
- Product warranties for your peace of mind
- Technical advice and support for specialised applications
- Full suite of online resources at professionals.tarkett.com.au

Gary Eggers – National Technical Manager

Performance

Stores and shopping centres are busy places and the flooring needs to withstand heavy foot and trolley traffic. It also needs to be easy to maintain so it stays looking good day after day.

OnOff Väsby, Sweden

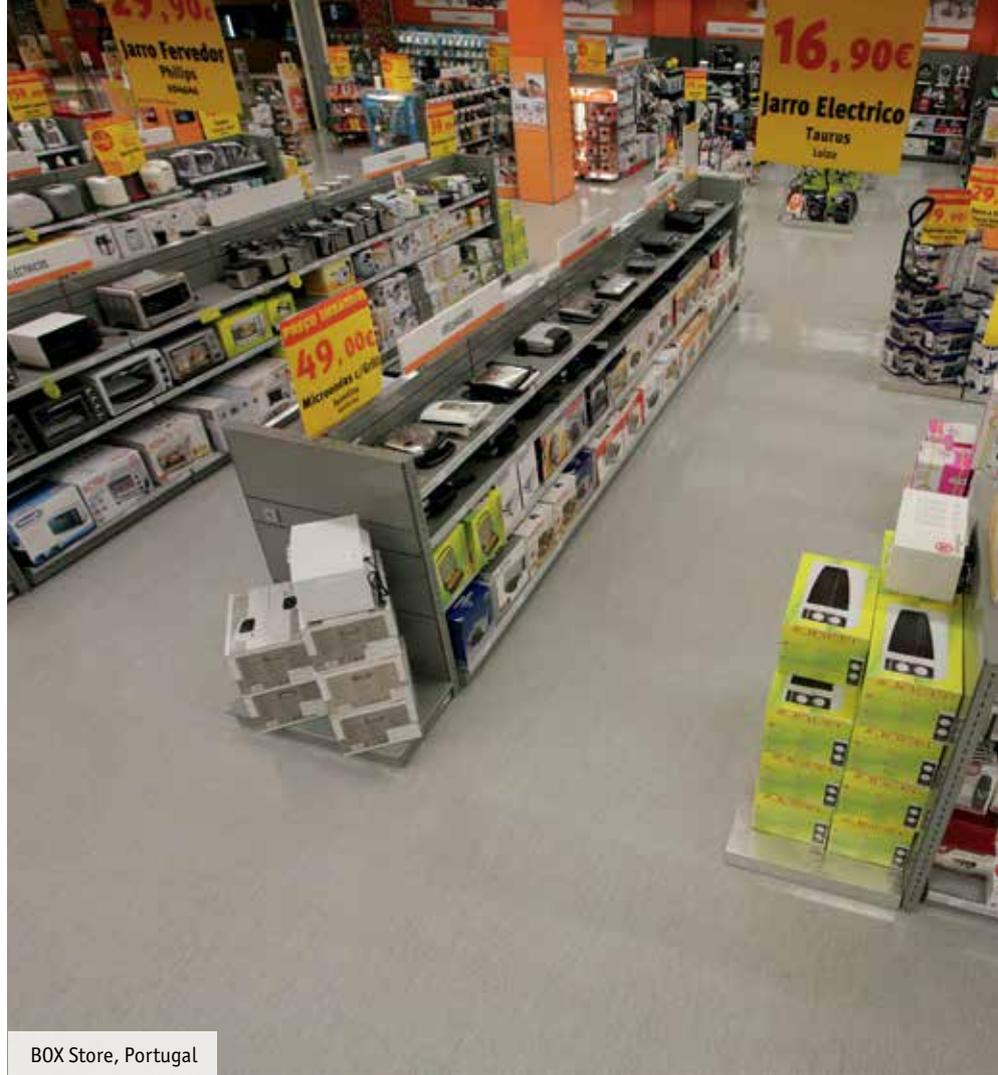

IKEA, Australia

WHY TARKETT FLOORING?

- > Extreme durability and resistance
- > Outstanding cleaning and maintenance properties
- > Complete flooring offer with solutions for every area

BOX Store, Portugal

Durability

Tarkett flooring's combination of high quality raw materials and advanced surface treatments ensures the highest levels of durability and surface resistance properties. Thanks to heavy-duty wear layers, it also has excellent resistance to indentation. This guarantees that your floor will retain its good looks throughout an extended service life, backed by our extensive warranties for your peace of mind.

Cleaning and Maintenance

Tarkett's flooring all offer excellent cleaning and maintenance properties with minimal effort and use of chemicals. Tarkett iQ vinyl's advanced construction allows easy surface regeneration for unrivalled ease of cleaning and long lasting good looks.

Functionality

Our huge range ensures we can provide a choice of flooring options for almost every application. From the extreme durability of our linoleum and iQ vinyl ranges for entrances and storage areas to hygienic and slip resistant Safetred for food areas we can meet your needs. For product recommendations, check out the Flooring Solutions section of this brochure.

Lifetime cost effectiveness

Studies show that the cost of cleaning and maintenance represents an average of 92% of a flooring's total life cycle cost. Tarkett's low-maintenance floor coverings can reduce these costs by up to 30%, giving the market's best life cycle cost.

Our floating floor solutions such as ID Excellence 50 Click have the additional benefit of being quick to install and easy to relocate providing a huge benefit in the fast changing retail environment.

Design

Tarkett's diverse design range allows you to enhance the shopping experience whether it's a trip to the supermarket or to an exclusive designer boutique. They can also be used to strengthen the brand and provide visual clues to help guide the movement of clients through the premises.

Mio Furniture, Sweden

Infinite possibilities

The flooring makes a major contribution to a positive and powerful impact. The total Tarkett range offer is based upon an understanding of colour and interpretations of materials, providing extraordinary design freedom with a remarkable variety of colours and patterns.

Alongside our genuine wood and laminate flooring, our vinyl collections include extremely realistic wood and stone patterns, concrete, brushed metallic, textile and other structured effects, providing a palette of natural materials, with all the performance benefits of vinyl flooring.

Brand enhancement

The huge range of colours and textures on offer ensures you can create a truly unique design that compliments and enhances the look and feel of the brand. Tarkett's Floorcraft Design Library offers a selection of motifs in a wide choice of colours and patterns. Our comprehensive accessories range is available in up to 38 colours and is specially developed to coordinate perfectly with all Tarkett flooring range to create customised designs and brand logotypes.

Modular flexibility

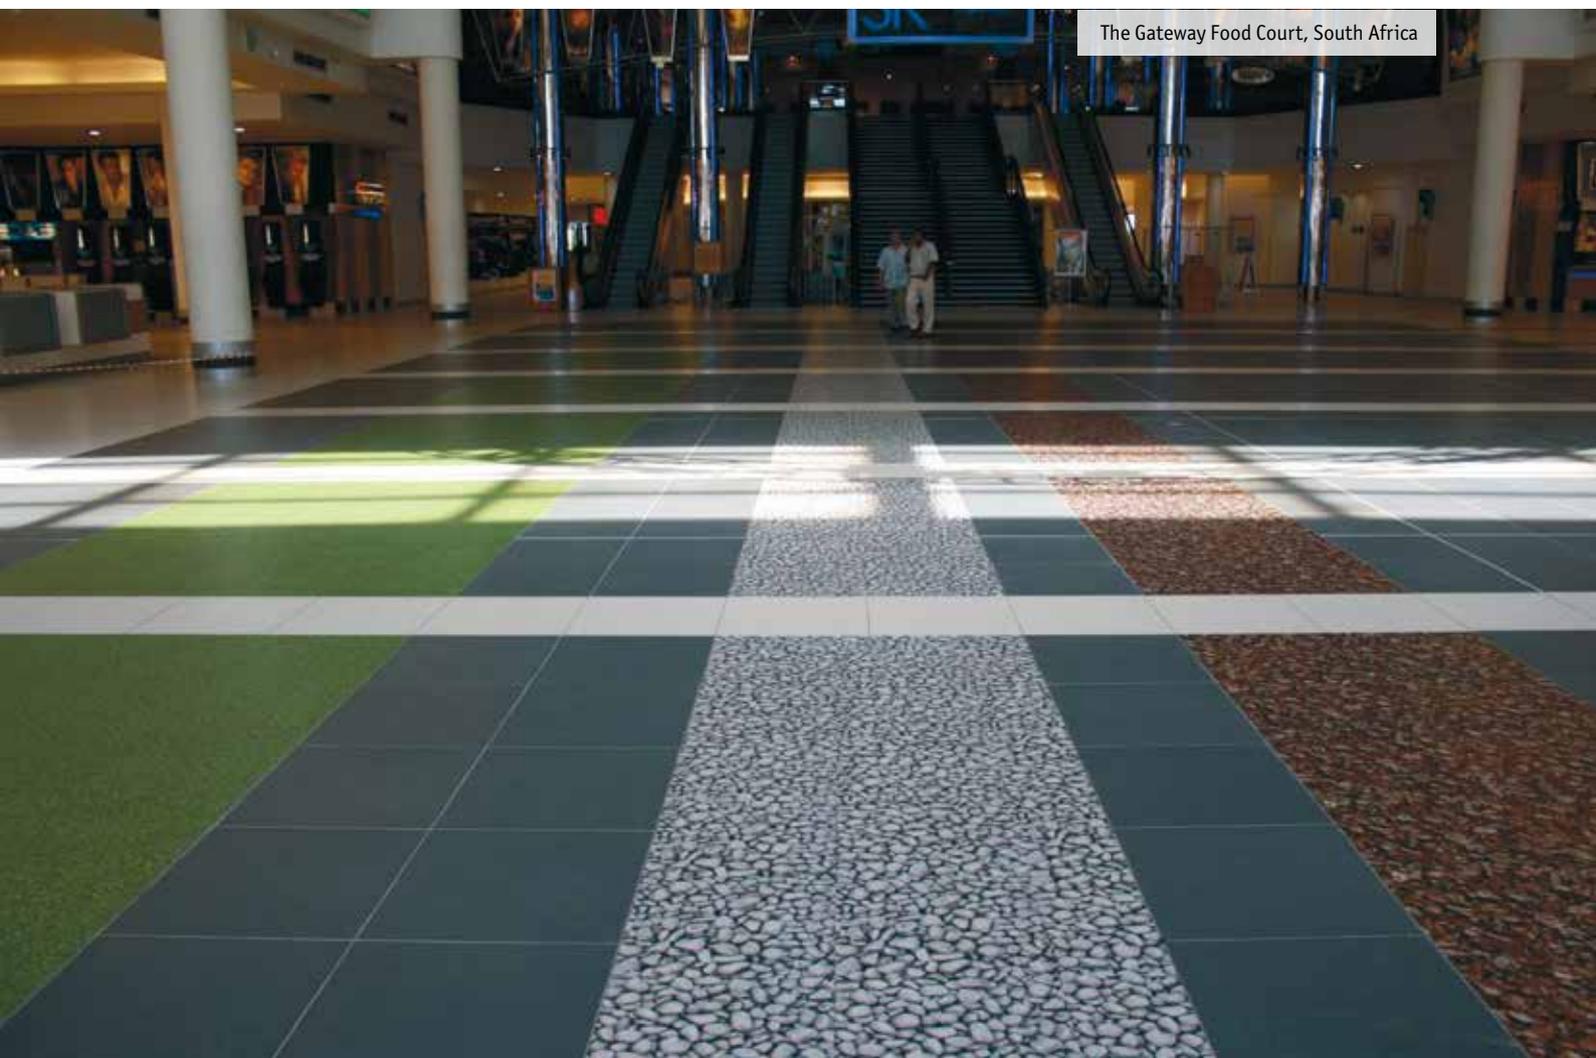

Our range of carpet tiles, vinyl tiles and planks offer unrivalled flexibility and can be used in countless combinations to create unique and striking design effects.

Our modular floors not only look great but our loose lay range, such as Square and Space, provides the practical benefits of ease of moving and adapting to different spaces and the ability to replace a single element in the event of damage.

WHY TARKETT FLOORING?

- > Developed for comfort
- > Wide design offer
- > Design coordination across all ranges

Many colours and patterns have been developed to be used in mixed installations for even more striking effect.

Sustainability

Tarkett is a leader in sustainable product innovation and environmentally responsible manufacturing. From selecting sustainable raw materials to facilitating reuse and recycling at the end of the product's life we focus on finding better solutions at every step of the way.

Natural and renewable

We source raw materials from nature as far as possible for our vinyl, linoleum, wood and laminate floorings. iQ Natural is the benchmark in environmentally friendly flooring, with a new plasticiser based on oil from the Ricinus communis plant, and other natural fillers, the natural and renewable content is an incredible 75%.

Tarkett's engineered wood flooring uses natural hardwood for the wear surface while approximately 75% of the product is produced using softwood sourced from forests that have a positive net growth of timber.

Sensitive manufacturing

A driving force for us is to develop processes and products that meet the highest standards for sustainability, from production through to disposal or recycling. We try to reduce water and energy consumption in our factories and ensure that waste and pollution are minimised. ISO 9001 and 14001 certifications recognise the efforts we make to ensure that our production processes respect people and the environment.

A lifetime of benefits

By careful engineering our iQ range delivers valuable health, hygiene and welfare benefits. The unique Surface Restoration properties of iQ minimise the need for water, detergent and energy for cleaning and maintenance. With maintenance savings in excess of 30% iQ offer the market's best Life Cycle Cost and a measurably enhanced ROI.

Reuse and recycle

Tarkett was one of the first flooring companies to recycle post-production waste and remains the industry leader. The iQ range produced at our Ronneby plant on average contains 25.5% recycled content consisting of post-production/post-installation waste and is 100% recyclable.

Lorna Jane, Australia

Good Indoor Air Quality

Tarkett flooring contributes to good indoor air quality and a healthier quality of life, with Volatile Organic Compound (VOC) emissions below quantifiable levels.

Phthalate free

Tarkett constantly eco-innovates to improve the raw materials used in its vinyl flooring. Tarkett has now substituted one of the current plasticizers with a new generation of non-phthalate plasticizer in all its homogeneous flooring. Tarkett continues to search for the safest raw materials to ensure safer, healthier indoor environments.

Tarkett's Balanced Choice

Our overall company approach to sustainability is called Balanced Choice and is integrated into our product offering. Every person, project and environment is different and requires different choices. Tarkett can advise you on the floors that work best for a given project, for a given environment and for a given budget, without conflicting interests.

BETTER MATERIALS

Where we can use renewable, natural resources, we do

RESOURCE STEWARDSHIP

Using fewer resources is good for the environment and the bottom line

PEOPLE-FRIENDLY SPACES

We make floors that are healthier and safer

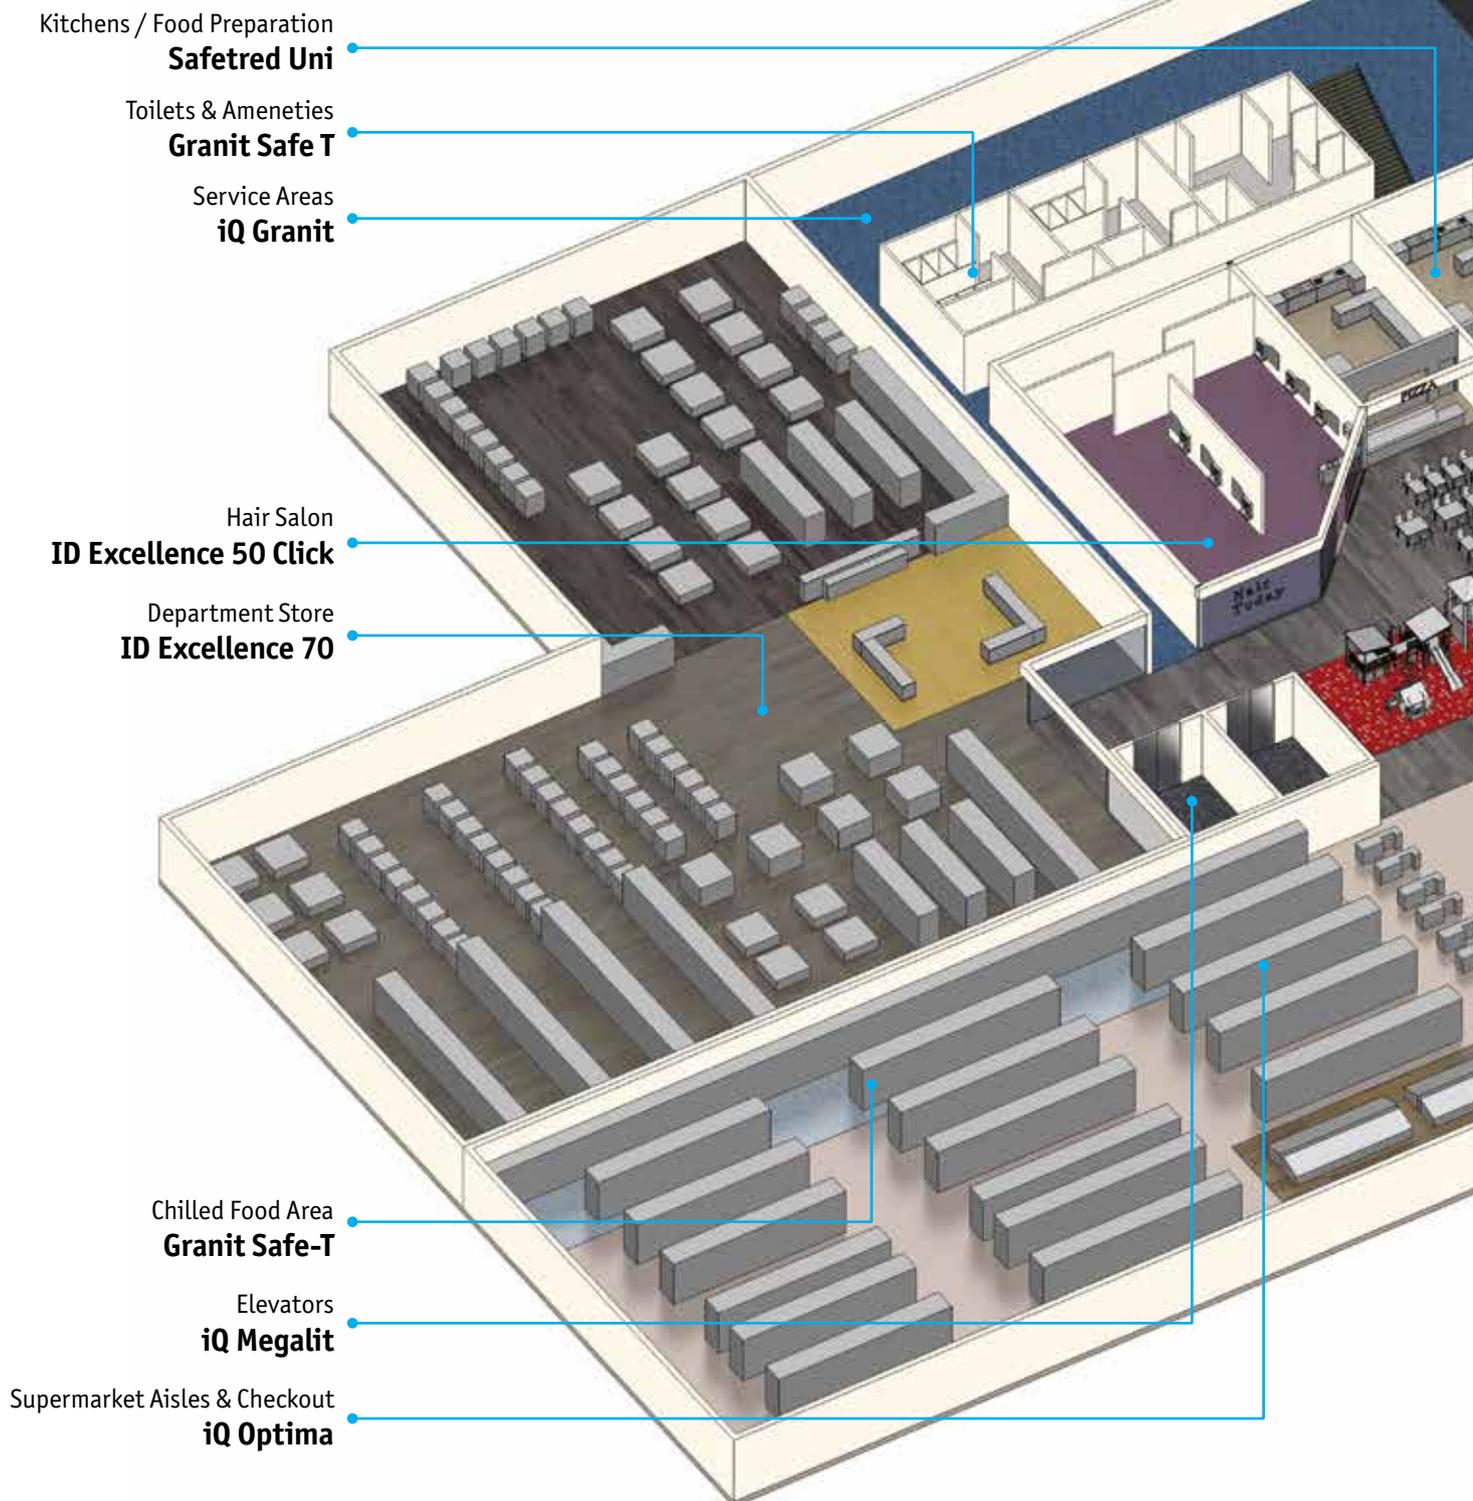

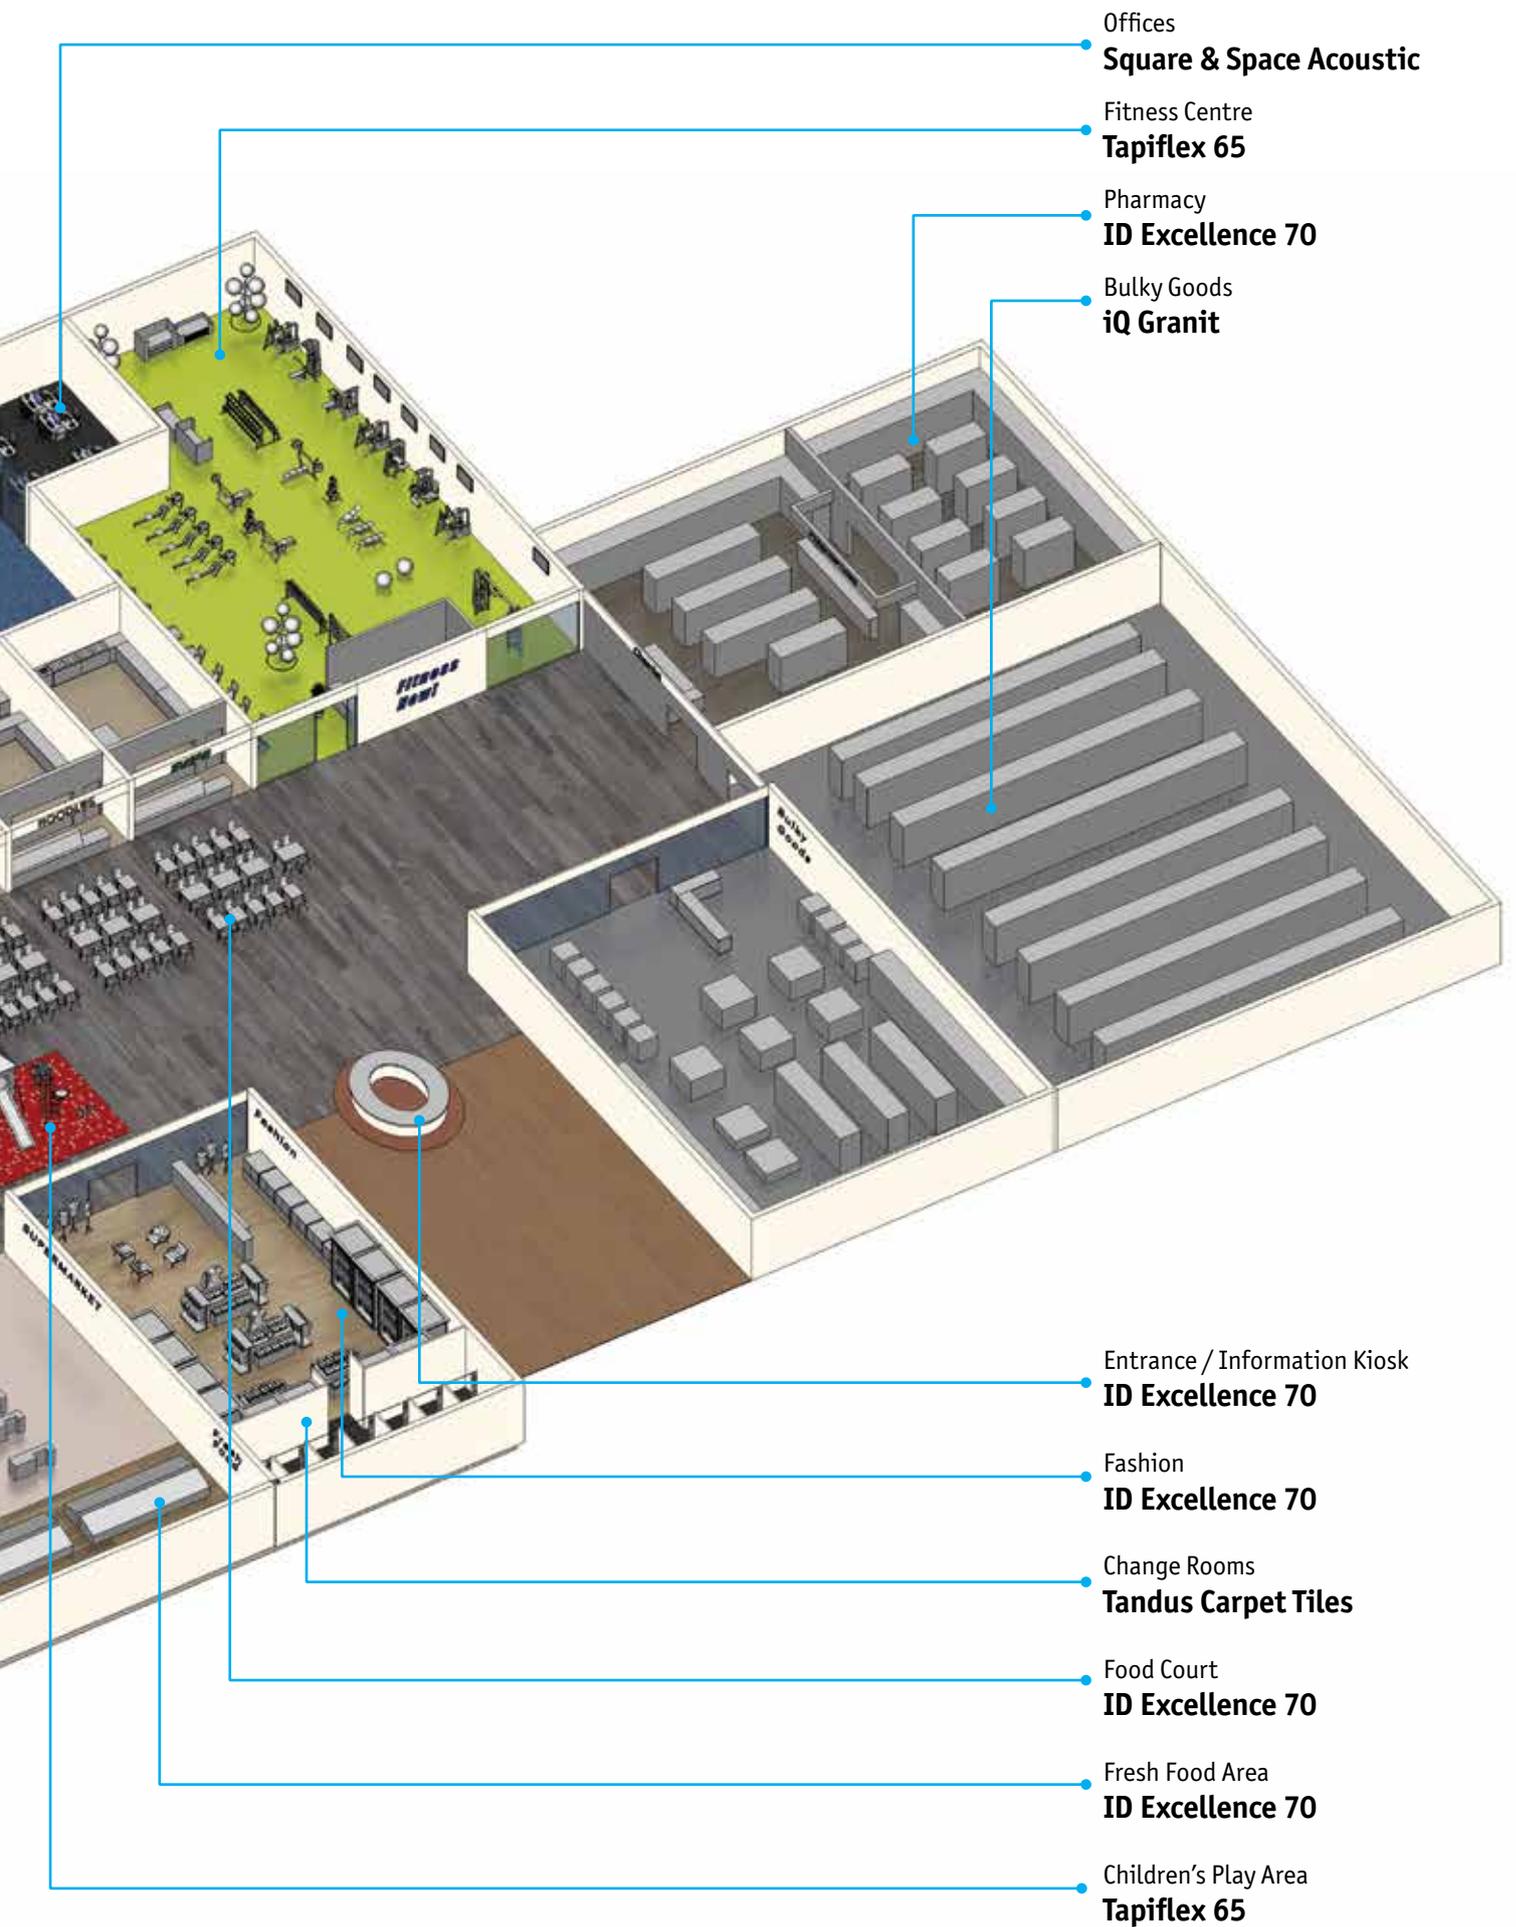

REUSE AND RECYCLE

We use more recycled content at the start and recycle more product at the end

Flooring solutions

Flooring Solutions

Entrance/ Information Kiosk

The entrance is the first opportunity to make an impact. While colour & design will set the tone of the environment, durability and ease of maintenance will be key to a flooring selection that will endure high foot traffic and still look great.

	Product	Durability	Designs	Colours
Recommended	ID Excellence 70	0.7mm wear layer	Timber	14 timber patterns
Suitable	ID Excellence 50 Click	0.5mm wear layer	Timber	10 timber patterns some with embossing
Suitable	iQ Eminent	2mm thick	All over pattern	26 colours with 3D effect

Central Management Offices

Comfort and visual appeal are important considerations in an office environment. Tarkett offer a large range of colours and designs to suit your professional décor. With the local nature of wear around workstations our modular solutions allow for ease of replacement or repair.

	Product	Durability	Designs	Colours
Recommended	Square & Space	0.7/0.8mm wear layer	Timber, stone, textile and structure	42 colours
Suitable	ID Excellence 50 Click	0.7mm wear layer	Timber	10 colours
Suitable	Carpet Tiles	Colour fast and fade resistant. Superior tear resistance	12 contemporary designs	52 colours

Department Stores

The huge variety of merchandise creates the need to provide a supremely comfortable shopping environment to encourage clients to shop the whole store. Our range of modern designs, and aesthetic colour palette offer cushioned comfort and help make shopping a pleasure. With ID Excellence's outstanding wear and ease of maintenance characteristics you can be confident of the best life cycle cost in the market.

	Product	Durability	Designs	Colours
Recommended	ID Excellence 70	0.7mm wear layer	Timber patterns	14 colours
Suitable	Acczent Excellence 80	0.8mm wear layer	Timber & textile	16 colours
Suitable	iQ Natural	iQ unique surface restoration	All over design	35 colours

Store in a Store

For brands to develop their own retail presence within an existing department store they need to clearly delineate their space from the rest of the store. The Tarkett range of modular flooring solutions offers huge flexibility to capture the brand personality whilst being quick and easy to install and remove.

	Product	Durability	Designs	Colours
Recommended	ID Excellence 50 Click	0.5mm wear layer	Timber Patterns	10 colours
Suitable	ID Excellence 70	0.7mm wear layer	Timber patterns	14 colours
Suitable	Laminate	8mm thick	6 design ranges	17 colours

Changing Rooms

Changing rooms can be challenging spaces and not only for those facing the mirror. Barefoot comfort and a quiet environment help to make important decisions easier. Our range of laminates, carpet tiles and modular vinyl compliments our shop floor solutions for an integrated modern look.

	Product	Comfort	Designs	Acoustic
Recommended	Carpet Tiles	Colour fast and fade resistant. Superior tear resistance	12 contemporary designs	Quiet and comfortable
Suitable	ID Excellence 50 Click	0.7mm wear layer	Timber patterns	Quiet under foot
Suitable	Laminate	8mm thick	6 design ranges	Install with acoustic underlay

Toilets and Baby Change Areas

Safety is a key concern in toilet and baby change areas where soap and splashes can lead to slips and falls. Our range of attractive safety vinyl products offers superior slip resistance whilst withstanding harsh cleaning chemicals for a long life of easy maintenance.

	Product	Slip resistance	Chemical resistance	Colours
Recommended	Granit Safe T	R10	EN423*	11 colours
Suitable	Safetred Uni	R10	EN423*	16 colours
Suitable	Safetred Excellence Wood	R10	EN423*	9 colours

*Good resistance to everyday substances

Stairways

The safety of clients and personnel is paramount. For stair safety with style Tarkett Tapiflex Stairs offers slip-resistance, durability and noise reduction in a broad range of colours and designs.

	Product	Slip resistance	Durability	Colours
Recommended	Tapiflex Stairs	R10	Extreme toughness & durability with superior lifecycle costs	11 colours

Supermarket / Check out

Constant foot and trolley traffic plus frequent spills and breakages make supermarkets a tough environment for flooring. Tarkett's high performance vinyls are up to the task with highly durable wear layers with excellent maintenance characteristics and modular options for quick installation and easy reconfiguration.

	Product	Durability	Chemical resistance	Colours
Recommended	iQ Optima	0.3mm wear layer	EN423*	30 colours
Suitable	ID Excellence 70	0.7mm wear layer	EN423*	14 colours
Suitable	ID Excellence 50 Click modular	0.5mm	EN423*	10 colours

*Good resistance to everyday substances

Fresh Food Areas

Unpackaged food and the constant moisture required to keep fruit and vegetables looking fresh and inviting provides greater cleaning challenges. Tarkett's solutions combine safety underfoot with a surface that is easy to clean and is suitable for heavy foot traffic.

	Product	Slip resistance	Chemical resistance	Colours
Recommended	ID Excellence 70	R9	EN423*	14 colours
Suitable	ID Excellence 50 Click modular	R10	EN423*	10 colours
Suitable	Safetred Excellence Wood	R10	EN423*	9 colours

*Good resistance to everyday substances

Flooring solutions

Chilled Food Area

Condensation can be an issue in chilled and frozen areas of food stores. It is important to ensure the flooring in these areas offers superior slip resistance as well as being hygienic and easy to clean.

	Product	Slip resistance	Chemical resistance	Colours
Recommended	iQ Granit	R10	EN423*	41 colours
Suitable	Safetred Excellence Wood	R10	EN423*	9 colours
Suitable	Safetred Uni	R10	EN423*	2mm thick, Safety Clean XP PUR reinforced surface

*Good resistance to everyday substances

Children's Play Area

Play areas are a great way of keeping kids amused during a shopping trip. Tarkett have a range of bright and colourful designs to liven children's senses that are soft and quiet underfoot helping to keep them safe and reduce disturbance of other shoppers.

	Product	Slip resistance	Durability	Design
Recommended	Tapiflex 65	R10	0.7mm wear layer	Huge range of timber, geometric, textile and stone
Suitable	Granit Acoustic	R9	Superior wear resistance with low maintenance	8 all over colours
Suitable	Design 300 Pole Position	R10	0.25mm wear layer on 3mm cushion backed product	Unique racetrack design

Food Court

Food courts are subject to high foot traffic and attract more than their fair share of spills. Tarkett's slip resistant hardwearing and easy to clean flooring will provide safety and long lasting good looks for the perfect dining experience.

	Product	Slip resistance	Durability	Design
Recommended	ID Excellence 70	R9	0.7mm wear layer	14 timbers
Suitable	ID Excellence 50 Click modular	R10	0.5mm wear layer	10 timbers
Suitable	Accent Wood	R10	0.8mm pure PVC transparent wear layer	14 timbers

Kitchen/ Food Preparation

Safety and hygiene are paramount in food preparation areas where slips can result in injuries and burns. Tarkett's range of safety flooring provides a high slip rating together with hygienic surface which will withstand moisture and not harbour bacteria.

	Product	Slip resistance	Chemical resistance	Durability
Recommended	Safetred Uni	R10	EN423*	2mm thick, Safety Clean XP PUR reinforced surface
Suitable	Granit Safe T	R10	EN423*	2mm thick
Suitable	Safetred Excellence Wood	R10	EN423*	2mm thick, Safety Clean XP PUR reinforced surface

*Good resistance to everyday substances

Bulky Goods

Bulky goods stores provide special challenges for flooring but Tarkett is up to the task. Our high performance flooring solutions offer exceedingly high levels of mechanical resistance to foot traffic, heavy trolleys and even forklifts. This durability is combined with acoustic benefits and a huge range of design choices to ensure a pleasant shopping experience.

	Product	Durability	Design	Acoustics
Recommended	iQ Granit	2mm thick	All over design	Quiet underfoot
Suitable	iQ Optima	2mm thick	All over designs	Quiet underfoot
Suitable	ID Excellence 50 Click modular	0.5mm wear layer	Timber designs	Quiet underfoot

Pharmacy

Creating a feeling of comfort and confidence is important in a Pharmacy environment. Our hard-wearing modular vinyl tiles in realistic timber patterns create a relaxing ambience and can easily be moved to accommodate changes in store layout.

	Product	Slip resistance	Chemical resistance	Colours
Recommended	ID Excellence 50 Click modular	R10	EN423*	10 timber colours
Suitable	ID Excellence 70	R9	EN423*	14 timber colours
Suitable	iQ Granit	R10	EN423*	31 colours

*Good resistance to everyday substances

Fitness Centre

Flooring in fitness centres and gyms need to be durable whilst helping to absorb impact and sound to improve comfort and help reduce the risk of injury to patrons.

	Product	Durability	Thickness	Impact sound reduction
Recommended	Tapiflex Excellence 65	0.65mm wear layer	3.35mm	19dB
Suitable	Tapiflex Essential 50	0.5mm wear layer	3.30mm	19dB
Suitable	Omnisport Reference	0.7mm wear layer	6.5mm	19dB

Hair Salon

Hair salons are all about style but you still need a flooring that performs given the constant foot traffic and defined work areas. The presence of water and chemicals also requires excellent slip and chemical resistance.

	Product	Slip resistance	Chemical resistance	Colours
Recommended	ID Excellence 50 Click modular	R10	EN423*	10 timber colours
Suitable	ID Excellence 70	R9	EN423*	14 timber colours
Suitable	Micra Premium	R9	EN423*	30 colours

*Good resistance to everyday substances

Elevators

Fire safety is a key consideration for materials used in elevators. Tarkett offers a huge range of designs and colours in products that meet the relevant standards, providing you with unparalleled design flexibility.

	Product	Fire resistance	Design	Durability
Recommended	Micra Premium	10.7kW/m ²	30 all over designs	Top rated for heavy traffic
Suitable	Standard	9.7kW/m ²	Classic directional pattern	Suitable for heavy traffic commercial use
Suitable	ID Excellence 50 Click	≥ 8kW/m ²	Timber designs	0.5mm wear layer
