wherever there's a window

EXQUISITELY ENGINEERED, VERTILUX ROLLER BLIND SYSTEMS ARE PERFECTLY BALANCED FOR WIDTHS OF UP TO 3400MM FOR MANUAL OPERATION AND 3900MM FOR SINGLE MOTORISED.

ENVIRONMENTAL ADAPTABILITY IS A KEY COMPONENT IN VERTILUX ROLLER SYSTEMS. WHATEVER THE APPLICATION, FROM TOTAL PRIVACY TO PANORAMIC EXPOSURE, FROM PERIOD TO CONTEMPORARY DESIGN, VERTILUX ROLLER SYSTEMS COMPLIMENT, COMPLETE AND CONTROL WINDOW COVERINGS IN EVERY SPACE. SETTING THE BENCHMARK, VERTILUX ROLLER SYSTEMS COMBINE SUBTLE ELEGANCE, TECHNICAL INNOVATION AND DESIGN FLEXIBILITY, PERFECTLY COMPLIMENTING ARCHITECTURAL VISION.

All Vertilux Exclusive fabric ranges are PVC free, bacteria, fade and mould resistant. Easy to clean, non-flammable and distortion free. Our fabrics are ultrasonically or crush cut with the latest technology to seal edges. Engineered for simplicity and durability the maintenance-free roller systems feature a five-year guarantee.

Roller Systems can be motorised and operated via remote-control, or programmed to self-operate at pre-designated times.

Alternatively, the Roller System can be chain operated, with chain options available in both poly-resin or stainless steel finishes. The Vertilux Tear Drop Base Rail comes standard in a large range of colours as does the Flat Base Rail that is used in the Fully Enclosed Kasset System. Refer to the Finishes colour selector for these colours and profiles.

The Vertilux internal/external Kasset system takes the Fascia Kasset system to the ultimate level by providing a fully enclosed headbox and full length side channels.

Just like the Vertilux Fascia Kasset system, the internal/external Kasset system includes a sleek and stylish enclosure for the blind and its mechanisms. With the added side channels the blind becomes fully enclosed which will totally block out any side light leakage ensuring maximum insulation from the elements. These features also make this the most environmentally friendly choice on the market for anyone wanting to control air conditioning and heating within the interior environment.

TECHNICAL DATA

	MINIMUM WIDTH	MAXIMUM WIDTH	MINIMUM DROP	MAXIMUM DROP
Spring Operated	400mm	2400mm	500mm	3050mm
Easydrive Standard Clutch	400mm	2400mm	500mm	3050mm
Easydrive Spring Assist	600mm	3400-3900mm	500mm	4500mm
Multilink	600mm	5000mm	500mm	4000mm
Motorised Multilinked	600-800mm	8000mm	500mm	5000mm
Fascia Kasset	600mm	5800mm	N/A	N/A
Fully Enclosed Kasset 80mm	400mm	3000mm	500mm	3000mm
Fully Enclosed Kasset 100mm	400mm	3500mm	500-600mm	4000mm
Airlift	400mm	3000mm	500mm	3050mm
