COMBINING A THOUSAND YEARS OF WINDOW COVERING TRADITION WITH THE BENEFITS OF CONTEMPORARY ENGINEERING, THE VERTILUX ROMAN BLIND SYSTEM IS A TIMELESS REGULATOR OF BOTH LIGHT AND PRIVACY. AN EFFECTIVE AND COST EFFICIENT INSULATION AGAINST HEAT, COLD AND SOUND, THE DURABLE AND ELEGANT ROMAN BLIND IS LIGHT TO THE TOUCH AND EASY TO OPERATE.

Our Roman systems come in a choice of mechanisms. Which system is right for you depends on the desired aesthetics, size and the placement of the blind.

Roman blinds offer great flexibility in light control. Sheer roman blinds provide glare reduction and protection from harmful UV, while total block out fabrics provide complete darkness. All fabrics are non-flammable and distortion-free.

Tasteful and easy to operate, Vertilux Roman blinds include a fabric covered headrail and operating mechanisms, generating a clean, stylish finish.

Each Roman blind is designed to ensure each folding segment is symmetric and evenly sized.

Vertilux traditional Roman blinds are Australian made and are both stylish and durable. They are also easy to clean and virtually maintenance-free.

The Avanti takes the Traditional Roman Blind and adds a stylish Front Batten detail spaced the full drop of the blind, creating a more contemporary look.

The Contemporary system features all the style benefits of the Traditional Roman blind but with the addition of a contemporary spring loaded bracket system.

The Vertilux Easyrise Roman blind system operates with the ease of a continuous chain mechanism.

Our classic Roman Blind, features all the specifications of the Avanti, but without the front batten.

The Vertilux motorised Roman blind system takes our traditional Romans and adds total light and shade control at the touch of a button.

The Vertilux fabric range spans an enormous variety of styles and colours incorporating the latest in textile designs and technology. Each fabric is designed to meet stringent standards in light control, glare reduction and insulation from harmful UV rays. Superior heat reflection properties assist in maintaining an energy efficient and comfortable living environment.

TECHNICAL DATA

	MINIMUM WIDTH	MAXIMUM WIDTH	MINIMUM DROP	MAXIMUM DROP
Avanti roman blind system	600mm	3000mm	600mm	2400mm
